HSCL Practitioner Services

Give Yourself the Gift of Love

Reach out to a practitioner if you need spiritual inspiration, support in celebrating a major event in your life, and/or healing in any area: financial, relational, health or career. You are God's wondrous gift. Practitioners can help remind you of that!

What is a Practitioner?

A Heart and Soul Practitioner is a person of high spiritual consciousness and deep understanding, trained in the study of the Science of Mind and the art, science, and skill of **Affirmative Prayer.** Our practitioners are dedicated to helping others, **licensed** to practice professionally, and bound by a high code of ethics to respect your privacy.

Heart and Soul licensed practitioners have completed a rigorous multi-year course of study, passed comprehensive written exams, and been approved by a panel of ministers and practitioners affiliated with Centers for Spiritual Living (CSL.org). Their licenses are renewed every two years after approval of required continuing education credits and service hours.

Why Use a Practitioner?

Practitioners are the healing arm of our center. When you need an arm around you or a shoulder to lean on, our Professional Practitioners are available, trained, compassionate, and most important, clear about your innate divinity. Our Practitioners will pray with you and keep you in a loving consciousness of prayer. We stand with you in knowing your highest and best, and exploring the use of spiritual law to create the life you desire.

Licensed Practitioners are available for:

- Prayer support before and after church services
- Prayer support for requests submitted to the Prayer and Care ministry
- Making visits to members at hospitals and care facilities
- Supporting funeral and memorial services
- Private individual spiritual guidance on a fee basis

About Practitioner Fees

The fee is established at the time an appointment is made. The fee is not for prayer, but rather for the practitioner's time, training, skill and professional knowledge of spiritual principles and practices that can enhance one's life. Fees and financial arrangements vary and need not be a deterrent to receiving service.

A Practitioner is one who practices mental and spiritual healing.

~Ernest Holmes, The Science of Mind 1938

What can I expect in a Practitioner Session?

Each session is structured to flow in the following way:

First and foremost, the relationship between the practitioner and you is one of utmost confidence, integrity, and trust. It is essential to the practitioner/client relationship that all information shared is kept in the strictest confidence.

To begin, your practitioner will welcome you and offer a prayer in support of the session.

You then have a dialogue where you can safely discuss whatever is on your heart. The Practitioner will listen attentively, respond without judgment, and hold you in highest consciousness. Your Practitioner may also suggest a spiritual tool(s) to assist you in clearing the path for whatever transformation you are seeking.

The session will close with a Spiritual Mind Treatment (Affirmative Prayer) to set the desired healing in motion. This affirmative prayer allows for the heart opening and movement in consciousness.

Heart and Soul Practitioners are here to help.
